

CBP Project Management

Course overview

The CBP™ project management certification equips the business professional with leading methodologies and practices in the project management field. Project management is a requirement for professionals in many fields, with many employers now identifying project management skills as vital for corporate success.

Whether you are a business executive or an information technology professional, the CBP™ project management certification will enable you to advance your career and develop your professional skills.

Who should attend

The course is recommended for project managers, senior executives, leaders, project team members, business analysts and managers.

Prerequisites

This course requires that students meet the following prerequisites:

1. The candidate must have a commitment to the pursuit of excellence
2. A general understanding of projects and business elements

What you will accomplish

The CBP™ project management certification covers the four key project management areas required to achieve CBP Professional™ or CBP Master Executive™ designation.

What you will receive

Each student will receive a copy of the course manual for post-class reference and a certificate.

Certification preparation

This module prepares candidates to sit the Certified Business Professional exam – E10-706.
